-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-28 are in the application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 27 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 27, there is no proper antecedent for "the structural support means"; in claim 28 there is no proper antecedent for "the means for providing structural support"; the structure recited in this claim is repetitive of the structure recited in claim 1.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-3, 11, 13-15, 20-22 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Arcouette.

Arcouette discloses a watercraft including a member 8 disposed along an interior surface of the hull of the watercraft and first and second supports 6 and 7 providing structural support to the hull. The rigidity provided by the structural supports will of necessity return a substantial portion of any impact energy as it is well known from Newton's Third Law of Motion.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 10 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arcouette in view of Everett.

Everett discloses a watercraft having a construction similar to that of Arcouette. Everett teaches securing the supports to the member by means of fasteners and to make the member from aluminum. In view of these disclosures, it would have been obvious to one skilled in the art to make the member 8 of Arcouette of aluminum and to use fasteners to secure the supports to the member generally as taught by Everett. Such a construction would be desirable to facilitate assembly of the watercraft.

Allowable Subject Matter

8. Claims 4-9, 12, 17-19, and 23-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Peerson et al discloses a kayak having a seat mounted on a slide.
